Applying for Reasonable Adjustment

CIPS has a responsibility to ensure all candidates have equal opportunities to reach their full potential. In some instances, candidates may require adjustments to the assessment process to give them an equal opportunity. Applications for Reasonable Adjustments should be submitted to CIPS before the exam entry closure date of the assessment.

This may include extra time, supervised rest breaks, use of readers, scribes, transcribers, coloured screens.

As a student at our study centre, we will process this reasonable adjustment on your behalf. We will assess needs, recommendation of reasonable adjustment, communication with CIPS and provision of the resources to facilitate the adjustment.

The student must send the below information to CIPS@cityofglasgowcollege.ac.uk 1 week prior to the exam closure dates.

- First Name
- Last Name
- Membership Number
- Supporting Evidence (It is highly unlikely CIPS will accept an application without supporting evidence)
- Any further supporting evidence
- Brief explanation of supporting evidence provided
- What reasonable adjustment are you requesting?
- Please explain the reason for the requested adjustment

Reviews and Appeals

The Awarding Body aims to:

- Provide a transparent procedure for dealing with requests for reviews and appeals
- Deal with any requests for reviews and appeals in a fair and timely manner and keep the candidate appropriately informed of the progress of the investigation
- Notify the candidate of the outcome which has been reached and where appropriate, what further action, if any, is to be taken
- Monitor and track reviews and appeals to identify trends and patterns to be included in annual reports.

Reviews and appeals fall into two categories:

- Category A those relating to the fairness of the assessment questions, tasks or process
- Category B those relating to the marking outcome of an assessment

In each case, Stage 1 deals with reviews and Stage 2 deals with appeals.

A candidate wishing to make a challenge relating to Category A should complete the Stage 1 Category A Review form via the CIPS website no later than 2 working days after the assessment date.

Category B Review requests will not apply to objective response (OR) exams, these exams are marked by computer and then moderated by CIPS examiners. Candidates requesting a review of their assessment (constructed response (CR) exams) under Category B must do so within 2 working days of the assessment result release date.

Students can do this directly with CIPS by searching 'Category A', purchase the product (it is free) and complete the form.
